PROFESSIONAL SUMMARY

Self-driven and solutions-oriented Electronics and Computer Engineering undergraduate at JKUAT, skilled in cybersecurity, with a solid foundation in programming and circuit theory. Proven leadership through roles such as laboratory captain and team sports. Certified in Android app development using Kotlin and actively exploring embedded systems and software development. Seeking industrial attachment to apply technical skills and grow in real-world engineering environments.

EDUCATION

Jomo Kenyatta University of Agriculture and Technology (JKUAT)

BSc. Electronics and Computer Engineering

Expected Graduation: [2028]

Utumishi Boys Academy — KCSE: A– (2022)

Years Attended: 2019–2022

Ruai Primary School — KCPE: 365 marks

Years Attended: 2017–2018

CERTIFICATIONS

- **Android Application Development** – Zalego Academy
 - [IBM Data Science Professional Certificate](#) – IBM Skills
 - [Cybersecurity Fundamentals with Capstone Project](#) – Credly Digital Badge
 - [Cybersecurity Fundamentals](#) – Credly Digital Badge
 - **Student Leadership Certificate** – Laboratory Captain Recognition
-

TECHNICAL SKILLS

- **Programming Languages:** C++, Kotlin (Android app development)
 - **Software & Tools:** Arduino IDE, Git, Firebase (basic)
 - **Electronics:** Circuit prototyping, multimeter usage, lab instrumentation
 - **Operating Systems:** Windows, beginner-level Linux
 - Cybersecurity
-

LEADERSHIP & ACTIVITIES

- **Laboratory Captain**, Utumishi Academy
Oversaw lab safety, organised equipment, and supported smooth operation of engineering practicals.
 - **Football Team Member**
Demonstrated teamwork, discipline, and time management as part of the university football team.
-

PROJECT EXPERIENCE

- An Android app in Kotlin
 - A simple C++ or Arduino system (LED control)
-

LANGUAGES

- English – Fluent
 - Kiswahili – Fluent
-
